POINTS IN DISPUTE COVERED BY AN IMPROVED CODE. Drawn by Chicago Experts Who Believe

That Reforms Are Necessary-General Demand for Action on Part of the Broadway Club-Evils Threaten the Sport. The demand for a general reform in the method of conducting boxing contests in local clubs appears to be universal among those who patronize the sport. The suggestion made in THE SUN of Wednesday that the Broadway A. C. would do much to restore pubconfidence by appointing either Charles White or Tim Hurst official referee was commended by many sporting men, who are anxlous to have glove contests controlled in such a manner that no suspleion can be attached to past that the Marquis of Queensberry code as interpreted at present does not cover enough ground. Several new sets of rules have been drawn up by experts in the last two years to be used as substitutes, but not one has been

The foregoing rules will be considered part of ell'articles of agreement, between the connectants the charter and the consideration.

If the Broadway A. C. should see fit to give this or some similar code a trial, in addition to acceding to the public demand for other reforms, the management would receive credit for elevating a popular sport. The sporting public has stood for many disappointments in give flighting, but so long as the game was without suspicion each succeeding attraction was liberally surported. At this stage the patrons of boxing appear to be desirous of substantial assurance that their interests are to be protected. There have been so many rumors of 'fakes,' so many wrangles over the proper interpretation of the rules and so many unsults factory decisions by referrees that the prediction is freely made that unless the men who are incentred institute immediate reforms they will be ultimately to blame for killing the sport.

TOUNG GRIFFO GOING TO RUIN.

ugilism and fame as "Young Griffo," and virtually dragged out of a grave within three young boxer from the Antipodes has taken to the cup, and it looks as though he is now in a fair way back to degradation and ruin. After making all manner of promises and vowing by all that he esteemed good never to touch another drop of liquor, Griffo went to the bad today and to-night is walking the streets in a maudin condition.

George Dawson, who took the boxer out of the Dunning Insane Asylum and restored him to something of his old time form, is disgusted. Heriothed him, housed him, and finally sent him to Carlisle, Pa., to build up. He then brought him back to Chicago, kept him in his own house, and trained him for his reëntrance to the ring. All this without any financial interest and with the rotion only of putting his fellow countryman on his feet.

Griffo had been filling a week's engagement at a local theatre at a profitable salary, and conducted himself admirably until to-day. There is nothing on earth to save him now," sald a physician and friend of the Australian to-night in discussing the case. "He is the most frail bit of humanity in a mental way that ever lived."

BASEBALL. Circuit Committee of Longue Is Said to

BALTIMORE, Jan. 18.-It leaked out here a satisfactory settlement of its difficulties, or at least a portion of them. The committee anpointed to devise ways and means for the reduction of the circuit has come to terms with the Baltimore owners, it is said, who have been standing out for a big price for their franchise, and Baltimore, Washington, Cleveland and Louisville will be dropped from the League. This will leave a circuit of eight clubs made up of Boston, Brooklyn, New York, Philadelphia, Pittsburgh, Cincinnati, St. Louis and Chicago. In the deal which was made for Baltimore it was stipulated that New York should have the pick of the Orioles. McGraw, Robinson and a few others of the stars will be seen in New York uniforms next season, and McGraw is scheduled for captain and manager of the club. Ewing will be released. The Baltimore franchise will go to the Eastern League, and Pat Powers, it is reported, has already made arrangements to gather this city into his circuit. These are the main outlines of the deal as

completed: ence to Baltimore may not go through as smoothly as expected, and it is quite possible that the owners of the local franchise and the players may not be able to deliver the goods in their entirety. McGraw and Robinson are very loath to leave Baltimore, and they may decide to cast their lot with the American Association. Those back of the new venture have been very busy of late, and yesterday McGraw received a letter stating that the circuit had been positively made up and was only waiting Baltimore's decision. Local capitalists have guaranteed to McGraw \$30.000 to start a team with the new association. smoothly as expected, and it is quite possible

anteed to McGraw \$30,000 to start a team with the new association.

McGraw said last night that Baltimore was entitled to something more than minor league ball, such as would be its fate in the Eastern League, and he intimated that should the new association at the coming meeting be able to make good its financial promises. Baltimore would be represented by a team in opposition to the league. McGraw says he has received letters from McGinnity, Howells, Holmes, Kitson, and others of the Baltimore club and they all say they will follow the fortunes of their leader. Should Baltimore, with McGraw in charge, go into the new association, Joe Kelly may join his old associates. Baltimore is Joe's home, and he said yesterday if the money end was made all right he would play here.

Schoolboys. By order of the delegates of the Long Island Interscholastic A. L., the baseball managers of the league teams met at the Erasmus Hall High School yesterday afternoon and adopted a new championship schedule. All of the schools were represented except the Brooklyn Latin. The games will be played at Washington Park and Adelphi Academy Field, barring the contest of the St. Paul's School. some of which will be played at Garden City. The schedule follows:

Tenney to Coach Dartmouth's Baseball

PROVIDENCE, Jan. 18.-The management of the Brown University basepall team announced to-day that Fred Tenney, '94, of the Bostons, the head-coach, will drill the squad only four weeks and will then give his services to Brown's most bitter rival, Dartmouth. Tenney is now teaching the new men how to hit straight balls and knock grounders.

Brown arranged last night to run a relay race with Cornell at the Boston College meet on Jan. 27.

Annual Meeting of the Metropolitan Asso-ciation Fixed for Feb. 1.

Secretary Du Fais announced yesterday that the annual meeting of the M. G. A. would be ropolitan Club. Aside from the routine bustness the special matters to be settled will be the place, time and conditions of the second annual M. G. A. championship, and the revision of the handicap list. At the championship last year at Garden City the winner, H. M. Harriman, gave the first indications of the quality that later on won for him the national championship at Onwentsia, and the M. G. A. officials are entertaining the hope that this year will again see one of its members capture the double event. Last season, besides the championship, the special events were an interclub foursome and a handleap. Whether this programme will be extended or cut down will be decided at the annual meeting. Regarding the general handleap list the question is whether the committee, which last year was made up of Daniel Chauncey, Dyker Meadow; E. C. Kent, Tuxedo, and Arden M. Robbins, St. Andrew's, will this season issue revised editions at intervals, or whether only one list will be sent out. The basis of the work of the handleappers, it is conceded, must be the separate lists of the different clubs in the M. G. A. and no change will be made in this respect. The association will show a prosperous year in the various reports to be submitted. In the point of membership the list will be extended from thirty-two clubs to forty-three by the election of eleven organizations that have asked to be enrolled at the annual meeting. officials are entertaining the hope that this annual meeting.

There is still no definite light on the reported visit of Harry Vardon to this country. The question as to whether he is to come over or not has passed from the point of mild discussion to the betting stage among the amateurs and professionals about the different links. The trend of opinion is shown by the offer of R. B. Wilson, the St. Andrew's professional under engagement at the Lakewood Country Club, to wager a gross of new golf balls against an old, battered up, remade ball, that Vardon, if he comes at all, will not leave Great Britain until after the open championship at St. Andrew's next June.

college year, while our games with the English students will be held while relations are still in progress.

"We might, it is true, compete on the Columbia University track, but the most satisfactory arrangement to us would be to have the games held either on the Yale or Harvard fields. This would give to them a decidedly collegiate air that would be impossible in another city. But at New Haven and at Cambridge we have ample room for entertaining a large crowd. At our Soldiers' Field we can provide accommodations for 40,000 persons.

"I think the joint team should be as strong as it was last year, although Harvard will lose Quinian, sprinter; Burke, quarter-miler, and Fox, hurdler. Yale will lose Palmer, two-mile runner; Fisher, quarter-miler, and Spitzer, one-mile runner. Oxford and Cambridge will not lose a man who won a point. Their absentees will be Adair, high jumper; Davison, distance man, and Thomas, sprinter."

While Capt. Rice did not give any solution to the grounds the game would be held on, there is no reason to suppose that there will be any difference in the method of settling who will have that say from last year. Then the winners of the dual games settled all such questions, and it is at least likely that the same method will be used this year. The game will be a great stimulant to Harvard, and it is expected that many men who would in ordinary years not lift a finger for the team will at once join the squad.

BRILLIANT COURT TENNIS CONTEST BETWEEN CHAMPIONS.

Professional Fails to Concede Half Thirty to His Opponent at Tuxedo, but Forces Him to Advantage Sets-Keen Interest in the Coming Amateur Match. TUXEDO PARK, Jan. 18.-The feature of today's play in the new tennis court here was the afternoon match of best out of five sets be- ments. Beginning with the brazing of the tween Peter Latham, champion of the world, and the English amateur champion, Eustace H. Miles. The latter received an allowance of "half thirty" and made such good use of the and they nearly all mean a better machine for concession that he won the rubber by 5-7.7-5. 7-5, 7-5. As the scores show, they were all advantage sets and hotly contested throughout. With both men playing the English style Miles was much more at home than against Pettitt yesterday, and his return play, especially from the angles, showed marked improvement. He was also, apparently, much keener on the game and forced the tsaue with a confidence which was due alike to his liberal handicap and the fine condition to which his previous match had brought him. It goes without saying that Latham rarely missed an opportunity, but the driving muscles of his right arm are strained and when the crucial test came in the third set, he weakened pal-

Grand totals for Clark trophy 1,013 1,023 2,036 Jacob Schaefer again failed to hold his own yesterday in his fourteen-inch balk line billiard match with Ora Morningstar, the Indiana champion. The "Wizard" scored only 250 points in the two sessions, which placed his total at 1,331. According to schedule he should be 1,600 in order to have a lead. He is to play 3,000 points against 1,500 for Morningstar. The latter completed his block of 200 points yesterday and his total for the match is 800. His highest run was 52. Schaefer put in a break of 90 during the evening, but he has not yet made a run of 100. The scores:

NEWS OF THE WHEELMEN. Many of the Changes to Be Found in the

To-morrow night the annual national show of wheels will be opened at Madison Square Garden to run until the night of Jan. 27. There will be at the show as many nev features in wheels as any one can study and absorb in a week. In the particulars that make wheels strong and make them run easily there will be many pronounced advanceframe joints, and pursuing the investigation to bearings, there is hardly a maker who has not made material changes in his methods. the riders who do not understand the methe difference between good service and poor, and have learned through experience the difframe lines there is a tendency noticeable on the part of a number of makers in the American Bicycle Company toward greater compactness and a slighter shortening of the wheel base. The tubing being used is a shade smaller, the enamel and the nickelling is bet-Unusual interest was focused on the match.

base. The tubing being used is a shade smaller, the enamel and the nickelling is better, the spoking is fuller and stronger and yet the machines are lighter. A man who began to ride a wheel in 1876 and is now in the trade was met by a reporter of The Sux after the dealer had been making a jaunt in the whole-sale district. The veteran was full of enthusiasm and he suid:

"It is sheer nonsense to talk about the wheels of this year being the same as those of last year. I have been looking around the last few days and when I get to the show I expect to fairly revel in the new things there. The wheels will look alike to greenhorns, but is it a matter of no care to riders that there has been a general reduction in weight? Look at the chainless wheels in particular. They differed last year and they offer marked contrasts now and they have all been changed. There is no monotony. There are new things in erank and handlebar fastenings that are beautiful to contemplate. In one wheel made in Connecticut there is a crank fastened by a tapered boit that is set up with the same key that looks the handlebars and the seatpost. This is a splendid illustration of the tendency toward a uniformity in tools.

"Take the matter of enamel. Forty makers, who all had different secrets about enamelling wheels, got together and now they can all use the formula that was used by the maker who had the best secret. Is this of no weight with riders or dealers? Any one who goes to the Cycle Show expecting a mechanical sameness everywhere, will not find it anywhere. There are a dozen new styles of hubs and spoke fastenings, dozens of new fork crowns. Some of the representative makers have returned from the double plate and box pattern to the single piece drop forging. When you go on to other details vou can find a bewildering variety of improvements. Any one who says there is nothing new must be dreaming."

The official handicapper of the L. A. W. said yesterday that the \$5,000,000 Good Roads bill was so far from being simply a campaign move of President Keenan, that he had been in correspondence on the subject with Otto Dorner. Chairman of the Highway Committee of the League, on the matter as long ago as May, 1849, and that Keenan had been made a party to the correspondence several months ago. According to the handicapper the bill was drawn somewhat crudely and is now awaiting various amendments which it is expected will be merely matters of detail and technicality. The fact of the bill being offered at this time of the year was pertinently said to be due to the fact that Congress was not in session last summer.

AQUATICS. Knickerbocker A. C. Water Polo Team De-

feats Columbia University. Water sports interested members and guests of the Knickerbocker A. C. last night. The promenade around the tank was filled with chairs and there was a large attendance of women. The feature was a water polo game between the Columbia University and the K. A. C. teams. It was the first match of the season and the champions swam rings around the collegians, winning by a score of 4 goals to 1. It looked as though even the soll-tary tally made by Columbia should not have been allowed, as the ball appeared to have left Spencer's hands before he touched the black-board. However, it was only a friendly match and the K. A. C. team scored at will.

The first goal was made by the champions in 29 seconds, by the simple process of Reeder grabbing the Columbia goal tender by the throat, pushing him under water, and Van Cleaf placing the ball on the board. The second tally required 3 minutes and 45 seconds, and again Van Cleaf scored for the K. A. O. In the second solf Reeder was the lucky man, putting the ball on the board after 1 minute and 30 seconds of play. Columbia's goal came immediately after, Spencer scoring in 50 seconds. Ruddy ended the tallying with a goal 1 minute and 45 seconds later. The teams were:

The fact that Company B, the holder of both the Kemp and Clark trophies, was scheduled to occupy the Seventh Regiment ranges last night was sufficient to imbue the shooting with more interest than usual. The First Naval Battalion and the St. Nicho. las Skating Club hockey teams met in an Amateur Hockey League game last night at the teur Hockey League game last night at the Clermont Avenue Rink, Brooklyn. The St. Nicholas team won, but it was only after the hardest kind of work. In the first half the St. Nicholas team secred two goals. The first was made by K. Gordon on a long drive, assisted by Capt. Callender. The second went to Conway, who was assisted by Barron. In the second half, scrimmage after scrimmage delighted the big crowl present. The sallors were on thier mettle and they made the St. Nick team play good, fast hockey to score two more goals. At the end of the first half the score stood 17 to din Trenton's favor, but in the last half the visitors made circles around the local boys, playing them to a standathli and gaining eleven points to the Trentons' six. Ten of the Now Yorker's points were made from field goals in this half. The playing was fast, rough and exciting. The Trentons' centre was disqualified for singging Abadie. The Trentons' entire team was used in the same, and Bugbee and Cartlidge were compelled to leave the floor because of anjurice.

Radcliffe Students Want Money for Their

CHARLESTOWN, Mass., Jan. 18.-The students of Radeliffe College are making efforts to raise money sufficient to put in use the swimming pool in their new gymnasium. The amount needed is \$6,000. Circulars have been sent out asking for individual effort from all friends of the college. They are signed by a committee representing the four undergraduate classes and the special students. The time limit is put at February. 1990, and although this leaves only a short period for work the students have hopes of success. They are said to have backers in their scheme, but not enough to raise the money without additional effort on their part. The pool was constructed as part of the gymnasism given by Mrs. Augustus Hemenway. The liming, however was furnished by a separate bequest of \$2,000 given by Mrs. Mary Hemenway. This money was originally for use in any way desired by the college authorities, and the pool was felt to be the most appropriate. The liming of white enamelled brick and marble was therefore provided. It was completed in December, 1898. Since then it has been lying ide for lack of funds to introduce the water and maintain the pool in proper condition.

The tank of the pool is 58 by 21 feet. It varies in depth from 4 feet 8 inches to 7 feet and has a capacity of 50,000 gallons.

The value of such a swimming pool in a college for women is shown by its constant use in the gymnasium at Bryn Mawr. Several years ago subscriptions from the alumni of that college introduced water to their pool, which is somewhat larger than at Radeliffe, but less handsome. Since then, at intervals, regular instruction in swimming has been given to the students, and the pool has been a constant place of resort after exercise during the winter and on the hot evenings of the spring term. Racing contests have been held, and the interest of the students seems to be constantly growing rather than decreasing. There is no question that similar results would follow the opening of the Radeliffe pool. and the special students. The time limit is put at February, 1900, and although this leaves

DETROIT, Jan. 18 .- Senator Timothy "Dry Dollar Sullivan," accompanied by matchmaker George Considine of the Broadway A. C., arrived in town to-day. They called on Billy Consistine, and while there the Senator in-dulged in a flerce denunciation of Referee

"Siler is an A. P. A. man and would not give an Irishman a show at the game. That's the secret of Tom Sharkey losing the fight with Jeffries. He cried when he was told that he could not referre the Erne-OBrien fight, and so we decided to allow him the bit of money he would make as referre. A week before the fight he said that he had never seen a fight that he could honestly declare a draw, and then he called the fight a draw because O'Brien had a name which grated on his nerves.

Thelieve the McCoy-Maher fight practically means the repeal of the bill permitting boxing in New Rork, but I shall put up the fight of my life in defending it and have strong hopes that I may prevent its repeal by the Senate."
